ES SERIES: A RAY OF SUNSHINE IN YOUR LAUNDRY

IMESA tumble dryers are the ideal answer to the laundry needs of hotels, restaurants, hospital laundries, retirement homes, industrial laundries, Coin op laundries, ...

Designing the ES tumble dryers, the IMESA R & D department paid a lot of attention to energy saving, ecology, easy maintenance and, of course, to operator safety. The reduced dimensions make this tumble dryer easy to be transported and installed in already existing laundries.

Thanks to the new generation microprocessor all the laundry costs can be kept continually under control, this means that laundry management has never be so easy!

Studied to last: a reliable structure and high quality components! We are proud of our product reliability in which we trust so much to grant the best warranty condition: **24 MONTHS TOTAL WARRANTY!**

Full customer satisfaction

ES tumble dryers ensure excellent results. Available in several heating versions (electric, gas and steam), IMESA drying is optimal and utility costs are reduced due to the special heated air directing system.

With the reversing drum option, the best ironing uniformity and quality is guaranteed also for big size linen: reverse tumbling prevents the linen from a "ball up" which would cause, at the end of the cycle, an uneven mix where some linen is dry and some is still wet.

With the two optional functions DSC and FSC, the laundry professionals can modify the drum speed and the fan speed independently to obtain the best drying results!

The "no wrinkle system" at the end of the cycle will make the finishing operation easier. When the dryer cycle ends, the drum will continue to rotate in one direction, and in the opposite one, with regular pauses thus avoiding wrinkles.

ERGONOMICS, SAFETY AND SAVINGS

EASE OF LOADING AND UNLOADING:

Door width and its position makes it easy to load and unload the linen. The door can be opened at 180°, so that user operation is not disturbed. To make the line process easier, the dryer is available also with left opening (under request).

SAFETY:

A safety device stops the tumble dryer if the door is opened while the dryer is working.

LOW NOISE:

To make the laundry a nice and not noisy room, the IMESA tumble dryers have been studied to maintain a noise level below 70dB (A).

Electric heating:

thanks to the microprocessor, which allows the power level control, the electric heated dryer can work at full power or partial power reducing power consumption.

Steam heating:

Thanks to the damper system, heat is immediately available. With this system problems due to water hammering are avoided: IMESA dryer is studied to last!

Gas heating:

IMESA tumble dryers can work with all types of gas and are equipped with electronic ignition plug and flame control.

GOST CERTIFICATION:

IMESA tumble dryers are meeting Russian Federation product standards.

All IMESA gas heated dryers are certified respecting European Community rules.

IM 7 microprocessor: everything under control.

Developed to make the dryer use and maintenance easier as well as cost control, the IM7 microprocessor is extremely flexible and intuitive.

COMMUNICATION NO PROBLEM

IMESA knocks down communication barriers; IM7 microprocessor can speak more languages. The keypad is using only symbols so it is easily understood.

SAVE IN MAINTENANCE

An easy maintenance means a reduction of costs. All the displayed alarms are saved in the microprocessor memory and can be easily retrieved in case of service. Thanks to the HELP Area, instruction to most common problem resolution can be read directly on tumble dryer display. A quicker and correct diagnosis will help to solve the machine stops in the shortest possible time!

Standard on all ES tumble dryers the microprocessor allows you to control easily:

- Drying time;
- Drying temperature;
- Drum speed (option DSC);
- Suction fan speed (option FSC);
- Heating power level (only on electric heated model);
- No wrinkle cycle.

REDUCING MANAGEMENT COSTS

Thanks to the Power Control function the electric heating tumble dryer can work on different power level: basing on the available power the user will choose the appropriate level. The consumed energy can be controlled at display (this function is available in all heating version). Electric loading can be controlled directly from keypad.

DRYING PROGRAM

Each fabric needs parameters in the drying phase. Drying program may differ by temperature, time, drum speed, suction speed, no wrinkle parameter, etc. The IM7 microprocessor allows for up to 30 different programs which can be modified by the user following its needs. Each program is named and can be recalled each time it is needed. In this way the drying result will be always of high quality, damages on linen will be avoided and cycle setting time will be saved.

IMESA:

ADDING VALUE
TO YOUR JOB!

ES 10 – 14 – 18 – 23 – 34

IMESA ES tumble dryers are all available with:

- Stainless steel drum;
- Eposidic painted panel;
- Microprocessor controlled: 30 programs;
- Big lint screen; easy to be cleaned when the request is displayed;
- Cooling function, to avoid shocks to the linen;
- High efficiency suction system;
- Energy control function.

Optional:

- Reversing drum option;
- Drum speed control (DSC);
- Suction fan speed control (FSC);
- Power level control.

**ES LINE:**

ECOLOGIC,
ECONOMIC,
ERGONOMIC!

ES SS 10 – 14 – 18 – 23

Ideal for Coin Op laundry, IMESA ES SS tumble dryers are available with:

- Stainless steel drum;
- Eposidic painted panel;
- Coin op control;
- Big lint screen; easy to be cleaned when the request is displayed;
- Cooling function, to avoid shocks to the linen;
- High efficiency suction system;
- Reversing drum;
- Energy control function.

Optional:

- Mechanical coin box;
- Electronic coin box;
- Cashless payment system (electronic key). This system may be combined with a mechanical or electronic coin box;
- Connection to central cash;
- Display personalisation with advertising messages.

**ES SS LINE:**

QUALITY AT
EVERYONE
DISPOSAL!

ES M 55 – 75

Ideal for medium / high productivity laundry, IMESA ES M tumble dryers are all available with:

- Stainless steel drum;
- Eposidic painted panel;
- Microprocessor controlled: 30 programs;
- Big lint screen; easy to be cleaned when the request is displayed;
- Cooling function, to avoid shocks to the linen;
- High efficiency suction system;
- Inverter;
- Motorreductiongear;
- Reversing drum;
- Energy control function.

Tilting Version:

- Pneumatic forward tilting to make easier the unloading on a trolley or on a transporting belt (version T1);
- Pneumatic backward tilting to receive the loading by a conveyor (version T2);
- Remote control.

**ES M LINE:**

HIGH
CAPACITY
FOR HIGH
QUALITY
RESULTS!

IMESA: A LIFE BY YOUR SIDE

Imesa is a leading company in the production of laundry equipment. We achieved this goal thanks to more than 40 years of total commitment to the continuing challenges to satisfy the growing technological expectation of human beings and meetings changes in lifestyle.

Innovation, quality, safety, versatility, service and reliability: IMESA success is based on this six concepts. Innovation in technology and proposal. Quality guaranteed by an UNI EN ISO 9001 certified production system. Safety of products certified by qualified operational organisation in various part of the world. Versatility and flexibility which allows many possibilities of customisation. Reliability thanks to the solid product structure.

Customer satisfaction is IMESA main achievement. Thanks to an international and professional net of distributor and to a well trained service net, IMESA can assure a global service in Italy, in Europe and in all the world.

During the offer step, IMESA distributor offers a complete support in the correct equipment choice and complete the job with a financial analysis of the investment as well as with the project.

IMESA can deliver in a very short time thanks to **equipment stock** in many countries: Italy, Spain, French, Portugal, Algeria, Hungary, ...

The wide **service** net can assure a quick **technical assistance** in case of necessity and the **spare parts can be easily purchased** in IMESA official website.
